Executive Secretary (FOR)

Engagement of Consultant by Forum of Regulators (FOR) for conducting a study on “Assessment of Competitive Bidding in Renewable Energy”

Terms of Reference (TOR)

1.0 Introduction:

- 1.1 The Forum of Regulators (FOR) has been constituted by the Government of India in terms of Section 166 (2) of the Electricity Act, 2003. The Forum consists of Chairperson of the Central Commission as Chairperson and the Chairpersons of the State Commissions as Members of the Forum. Secretarial assistance to the Forum is provided by the Central Commission. The Forum is responsible for harmonization, coordination and ensuring uniformity of approach amongst the Electricity Regulatory Commissions across the country, in order to achieve greater regulatory certainty in the electricity sector.
- 1.2 FOR has been taking steps towards ensuring that the provisions in the Electricity Act 2003 (EA) and the policies i.e. National Electricity Policy (NEP) and Tariff Policy are implemented. The Electricity Act 2003 as well as the abovementioned policies emphasise the necessity of promoting competition as well as ensuring viability of the sector.
- 1.3 Section 63 of the Electricity Act, 2003 specifies as under:
“Notwithstanding anything contained in section 62, the Appropriate Commission shall adopt the tariff if such tariff has been determined through transparent process of bidding in accordance with the guidelines issued by the Central Government.”
- 1.4 Clause 6.4 of the Tariff Policy is reproduced below:
“It will take some time before non-conventional technologies can compete with conventional sources in terms of cost of electricity. Therefore, procurement by distribution companies shall be done at preferential tariffs determined by the Appropriate Commission.
(2) Such procurement by Distribution Licensees for future requirements shall be done, as far as possible, through competitive bidding process under Section 63 of the

Act within suppliers offering energy from same type of nonconventional sources. In the long-term, these technologies would need to compete with other sources in terms of full costs.”

- 1.5 At present, tariff for renewable energy sources is determined by the respective Regulatory Commissions (CERC/SERCs). At the same time, tariff for solar power projects is also discovered through auctions.
- 1.6 It is also observed that of late, there has been a considerable decrease in costs of renewable energy technologies, especially of solar PV under cost plus as well as competitive route.
