Additional clarifications regarding increase in service tax.

In response to queries received on the anticipated increase in service tax rate w.e.f 1st April 2015 with respect to bids submitted by interested agencies, it is clarified as follows:

1. In case of already awarded bids or bids in the pipeline, selected bidder would be allowed to claim for the differential amount arising out of the increase in service tax component in their invoices.
2. In case of bids yet to be submitted for which ToR is already advertised, bidders to specify separately the liability on account of increase in service tax by way of foot note.
