Sub: Report on Feedback for 1st Global Regulatory Perspectives Programme for Commissioners of Electricity Regulatory Commissions organised from 13 – 15 March 2019 at Melbourne, Australia

Dear Mr. Jha,

This is with reference to the “1st Global Regulatory Perspectives Programme for Commissioners of Electricity Regulatory Commissions ”organized from 13 – 15 March 2019 at Melbourne, Australia. We would like to thank the Forum of Regulators for giving us responsibility to organize the above programme. The speakers were experts in their respective areas.

We are pleased to inform you that the programme was conducted successfully as per the FOR’s requirements. The programme agenda and speakers were finalized in consultation with the FOR. I am enclosing herein the programme schedule, a list of speakers and a list of participants.

It is encouraging to mention that the programme was well appreciated by the participants. A detailed feedback was obtained from the participants. A summary of the feedback is enclosed for your reference. The participants have also given specific feedback/suggestions for design of similar activities in future. These are also provided for necessary action at your end. We would be pleased to provide any assistance, if required.

We thank you for keeping confidence in our abilities to organize this programme. We hope to undertake similar tasks in future as well. We would also like to request to release the final installment as well. An invoice towards the same is enclosed herein.

Thanking You

(Anoop Singh)

Summary of Specific Feedback by Participants

1. The tariff setting principles and procedure may be discussed in detail especially the issues which come while determining the ARR (Aggregate Revenue requirement) of any Utility.
2. Time span for the program was too short, it may be arranged for a week. Component of technical visit may be increased. Brain storming sessions on critical issues and way forward on that may be a useful exercise when the highly experienced personnel of sector come together

3. A session could have been devoted to listen the major challenges (for example, extensive use of solar power) and how they face it from those people who manage the utilities. Secondly, the schedule of programme was quite packed having no spare time even for half a day.
4. The sessions were too cramped. Programme could be designed for 5 days at least. Accommodation could have been better. There is a lot of scope for improvement.
5. Program was good, however in future linking it to our Power Sector Scenario may be more helpful.
6. The duration of programme was too short resulting cramping of sessions. The programme should have been at least for 4-5 days to avoid such rush towards completion of the topics.
